

IPR-10G-HDMI

IPR-10G-HDMI Mini-Converter is designed to bridge SMPTE ST 2110 networks to HDMI, with support up to UltraHD 50p or HD 60p.

\$ US MSRP

The IPR-10G-HDMI receives SMPTE ST 2110 audio and video over 10 GigE, and then de-encapsulates the data to output baseband HDMI video. Associated audio from the SMPTE ST 2110 stream is likewise extracted, synchronized, and embedded into the HDMI output. Simultaneously, analog stereo audio is available via the dual RCA outputs.

IPR-10G-HDMI includes a full-size HDMI 1.4b video output for seamless integration into existing baseband environments such as master control, trucks, edit suites, multi-viewer applications and HDMI displays.
